### LETTER OF TRANSMITTAL.

Department of Commerce,
Bureau of the Census,
Washington, D. C., May 13, 1919.

SIR:

I transmit herewith a statistical directory of state institutions for the care of the defective, dependent, and delinquent classes. This publication was planned by Dr. H. H. Laughlin, Superintendent of the Eugenies Record Office, Cold Spring Harbor, N. Y., who as special agent of the Bureau of the Census had charge of the collection of the data. The data were tabulated and the volume prepared in the Division of Revision and Results in this Bureau under the charge of Dr. Joseph A. Hill, assisted by Reginald L. Brown.

While in general the returns here published relate to January 1, 1916, or to the year 1915, it should be noted that the name and location of the institution and also the name of the chief executive officer and the facts regarding the controlling body represent conditions on March 1, 1919, or later, the original returns having been verified and revised through correspondence with a view to bringing this information as nearly up to date as practicable.

The publication here submitted was projected and partially completed before the United States entered the war; and its further progress and final completion have been in some degree delayed by conditions in this Bureau arising out of the war. It is believed, however, that in these times when, as a consequence of the war, the country in all probability is entering upon a period of social readjustment in which the problems associated with poverty, crime, and disability will demand more attention than ever before, this volume listing and describing the institutions established by the states for the care of the defective, dependent, and delinquent classes may have a greater usefulness than was anticipated when the work was originally projected.

Respectfully,

Sam. L. Rogers, Director of the Census.

To Hon. William C. Redfield, Secretary of Commerce.

## STATISTICAL DIRECTORY OF STATE INSTITUTIONS FOR THE DEFECTIVE, DEPENDENT, AND DELINQUENT CLASSES.

#### INTRODUCTION.

The class of institutions for which statistical and other descriptive data are published in this volume was defined to include any institution in operation on January 1, 1916, owned or leased, managed in whole or in part, and maintained to the extent of at least 50 per cent of its annual expenditures by the state or Federal government and devoted to the custodial or other continuous care of persons belonging to one or more of the following classes: (1) Feeble-minded; (2) Insane; (3) Criminalistic (including the delinquent and wayward); (4) Epileptic; (5) Inebriate (including drug habitues); (6) Tuberculous (or others with chronic infectious segregated diseases); (7) Blind; (8) Deaf; (9) Deformed; and (10) Dependent.

The number of such institutions, the total number of inmates, the total value of plants, and the total expenditures are shown for each class of institutions in the following table:

CLASS OF INSTITUTION.	Number of institutions in operation Jan. 1, 1916.	Number of inmates, patients, or pupils, Jan. 1, 1916.	Value of plants, Jan. 1, 1916.	Expenditures for maintenance and operation in 1915.
Total	576	$394,991_{-1}$	8408, 542, 752	\$81, 048, 990, 93
Institutions for—				
Feeble-minded	27	19, 298	16, 635, 818	3, 341, 442, 85

Blind and deaf		2, 223	3, 595, 144	615, 468, 41
Blind, deaf, and dependent	1	215	200, 000	59,649.67
		!		

In addition to giving details for those institutions which were in actual operation on January 1, 1916, reference is made to any institutions which were in the making on that date, the number of such institutions being about 30, and also to any which have since been provided for. The presentation for each state includes a map showing the location of the several institutions for the defective, dependent, and delinquent classes, a table giving general statistics for the state and indicating its rank as regards population, wealth, industries, literacy, etc., a classified list of institutions, and a statistical summary followed, in another section of the volume, by a detailed statement regarding each institution.

B Not reported separately.

Less than I cent.

In computing this average, it has been assumed that the average number of inmates per month is equal to the mean between the number at the beginning and at the end of the year. As the number at the beginning of the year was not reported, it has further been assumed that this would be equal to the number at the end of the year minus the number of admissions during the year and plus the number of losses during the year. The average expenditures per month will be one-twelfth of the total reported expenditures for the year; and this figure has been divided by the average number of inmates per month, obtained as above described, the result representing the average expenditures per immate per month.

B Exclusive of seven institutions.

B Exclusive of four institutions, but including "Other employees" for one institution.

B Exclusive of two institutions, but including "Attendants, guards, nurses, etc.," for three institutions.

Table 2. -Inmate Capacity of State institutions for defective, dependent, and delinquent classes, January 1, 1916, by classes of institutions, for divisions and states.

#### ALABAMA

#### GENERAL STATISTICS OF THE AREA. POPULATION, MANUFACTURES, AGRICULTURE, AND WEALTH, DEBT, AND TAXATION OF ALABAMA.

	Number or amount.	Rank of the state.		Number or amount.	Rank offlie state.
Area, square miles	51,279	27	Agriculture, 1910:		
Population, 1910: Total	2, 138, 093	18	Total farm land, acres Improved farm land—	20, 732, 312	10
Per cent of increase, 1900 to 1910.	16. 9	30	Total, acres	9, 693, 581	- 3-
Density (number of inhabitants per square mile) Urban and rural—	41.7	21	Per cent of total land area of the state Value of farm property—	291.5	22 27
Number of places of more than 25,000			Total	\$370, 138, 129	29
Number of places of more than 2,500.	28		Average per acte of farm land $\dots$	817, 87	15
Per cent urban (persons residing in incorporated places of 2,500 inhabitants or more)	17.3	41	Per capita. Value of farm crops→	\$173, 12	12
Per cent rural	82.7	9	Total	\$141, 287, 347	18
Sex— Males to 100 Iemales.			Average per acre 2	815, 57	26
Race and nativity— Percent native white		43	Per capita. Wealth and assessed valuation:	\$67, 48	21
Per cent foreign born	56, 6 0.9	41	Estimated true value of all property, 1912 Total assessed valuation of taxable property, 3 1916	82, 127, 951, 930	25
Per cent Negro.	12.5	5	Average assessed valuation per capita, 1916.	\$630, 201, 606 \$274, 78	
Vee-	12.17		Average assessed valuation per square mile, 1916.	812, 290	
Per cent of total under 15 years of age	39. 7	5	State debt. 1916:	512, 239)	30
Per cent of total 65 years of age and over	3 1	36	Total	813, 563, 937	
Literacy, 1910:			Per capita 4	85, 91	1.1
Per cent able to write among persons 10 years of age and			Per \$100 property subject to general property tax	82, 15	
over—			Levy of general property tax for state purposes, 1916:	4	
In total population		47	Total	\$4,096,330	16
In native white population	90, 1	4.1	Per capita 4	\$1, 79	3.5
In foreign-born white population	88. 7	29	Per 8100 taxable property	\$0, 65	
In Negro population.	59, 9	18	State revenue, 5 1916:		
Occupations, 1910:  Per cent of total number of gainful workers engaged in—			Total	87,014,652	23
Agriculture, forestry, and animal husbandry	67.1	4	Per \$1,000,000 property subject to general property tax.	\$3,06	
Extraction of minerals	2.9	13	Amount received from general property tax	\$11,131	11
Manufacturing and mechanical industries	10.8	46	Total	\$4,092,641	100
Transportation.		46	Per cent of total state revenue	58.3	14
Trade	4.3	46	State expenses (including interest), 5 1916:	90. 0	14
Professional service,,,,	2.1	47	Total	87,820,083	19
Domestic and personal service	7. 6	37	Per capita 4	83, 41	35
All other occupations	1.8	45	Per \$1,000,000 property subject to general property tax	812, 409	
Manufactures, 1914:			Per \$100 total revenue,	\$111,48	
Value of products	, ,	30	For maintaining state institutions for the defective, (dependent, and delinquent classes—Total		,
Total		27	Total	\$425,018	41
Per capita 1	\$31,45	41	Per cent of total state expenses	5. 4	4.5
Number of wage carnets	78,717	21			1

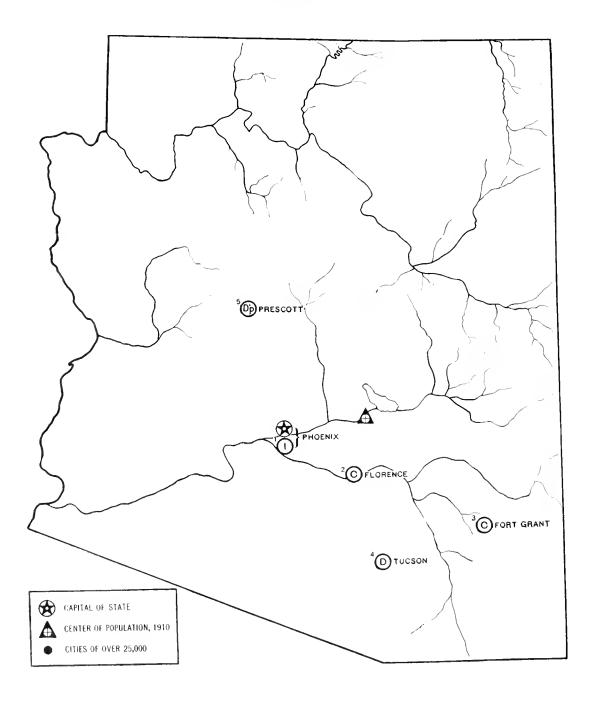

Based upon estimated population for 1915.
 Not including orchard and other fruits for which acreage was not reported.
 Not including valuation of property subject to special property taxes.
 Based upon estimated population for 1916.
 The figures here given refer to the state government only and do not include the public debts, revenues, or expenditures of counties, municipalities, or other minor civil divisions.

## CLASSIFICATION, NAME, AND LOCATION OF ALABAMA INSTITUTIONS FOR THE DEFECTIVE, DEPENDENT, AND DELINQUENT CLASSES.

A state reformatory for women was authorized by the legislature of 1915, which appropriated \$30,000 for the purchase of a site.

In 1917 the state legislature passed an act establishing an asylum for the insana at Willman and transferring to it the property of the Hospital Farm for Inebria/es. This institution, which in 1919 was given the official name of Willman State Asylum by the legislature, cares for both insane and inebriates.

In 1917 the state legislature passed an act establishing the North Carolina Orthopsedic Hospital, which has been located at Gastonia.

2 This colony is an untegral part of the State Hospital for the Insane. It was established in 1910 and in 1910 had 180 male and 72 femade members. Data for the colony were included in those for the hospital proper.

3 In 1919 the state legislature passed an act providing for the removal of the State's Prison to a site not yet selected.

4 A department of the State's Prison.

5 Near Tillery, the State Farm, consisting of 7,200 acres, was established in 1898 as an adjunct to the State's Prison. The prison maintains from 250 to 600 prisoners there, and the entire farm has been paid for by puson labor. Data for this farm were included in those for the prison proper.

<sup>&</sup>lt;sup>1</sup> The two institutions for the tuberculous were not opened until the latter part of 1915, one being in operation only three months and the other only four. The figures for annual approximation, and expenditures represent for one institution four and for the other three "times the amount reported for the period actually in operation.

<sup>2</sup> Exclusive of unstitutions to the tuberculous.

<sup>3</sup> As these institutions were in operation for only part of the year, the data were insufficient for computing an average.

<sup>\*</sup> For significance of the symbols following names of institutions, see p. 35.

Computed according to the method described on p. 9

Established in 1821 and opened in 1822 as the Indiana State Prison.

Originally combined with the Indiana Woman's Prison.

Institution in operation for eight and one-half months during 1915. Figures for state appropriation represent twice the amount appropriated for the support and maintenance of this institution for the period from Apr. 12 to Sept. 30, 1915, and inners for expenditures twice the amount expended during this period.

Average for the year 1915.

<sup>\*</sup>For significance of the symbols following names of institutions, see p. 35.

1 Computed according to the method described on p. 9.

2 Not reported.

3 Figures relate to the fiscal year ending in 1916.

4 One-half of expenditures for the biennum ending July 1, 1915.

5 Institution in operation only three months during 1915. Figures for state appropriation represent four times the amount allotted by the State Board of Trustees for Tuberculous Sanatoria from a general state appropriation for the care and treatment of the tuberculous for the support and maintenance of this institution for the period actually in operation, and figures for expenditures four times the amount expended during this period.

<sup>\*</sup>As institution was in operation for only part of the year, the data were insufficient for computing an average.

\*Institution in operation only four months during 1915. Tigines for state appropriation represent three times the amount allotted by the State Board of Trustees for Tuberculosis Sanatoria from a general state appropriation for the care and treatment of the till exculous for the support and maintenance of this institution for the period actually in operation, and figures for expenditures three times the amount expended during this period.

\*Institution in operation only good seven months during 1915. Figures for expenditures represent three times the amount reported for the period from June to Sept. 30, 1915.

<sup>\*</sup> For significance of the symbols following names of institutions, see p. 35.

'computed according to the method described on p. 9.

Figures relate to the fiscal year ending in 1946.

In 1947 this institution was a tanged to the Williams State Asylum, an institution for the insane and inebriates.

Included with "Other employees."

Included with "Other employees."

The Mississippi State Penitentiary consists of 8 branches located in different parts of the state. For a list of these branches and their location, see p. 81. The data here presented relate to the institution as a whole, separate returns not having been made for the inclividual branches.

Fiscal year for income ends Dec. 31. 'In (for expensiture Jane 3).

<sup>\*</sup>For significance of the symbols following names of institutions, see p. 35.

1 Computed according to the method described on p. 9.

2 Established as a branch of the Synacuse State Institution for Feeble-minded Children in 1878.

3 Figures relate to the fiscal year ending in 1916.

4 In 1919 the state legislature passed an act discontinuing this institution.

5 Fiscal year for appropriations ends Sept. 30; that for expenditures Oct 1.

<sup>\*</sup> For significance of the symbols following names of institutions, see p. 35.

1 Computed according to the method described on p. 9.

2 Figures relate to the fiscal year ending in 1915.

3 Five appointed by governor, two by councils of city of Philadelphia, and one by county commissioners of each of the counties of Bucks, Montgomery, Pelaware, Chester, Northampton, and Lehigh.

4 Figures relate to May 31, 1916.

5 Appropriation for biemnial period 1915-16 for maintenance, operation, and construction of three sanatoria and 117 dispensaries was \$2,725,807.

6 Established under authority of a law passed in 1907 empowering the Department of Health to establish one or more sanatoria for tuberculosis.

7 Three ex officio, one appointed by presiding officer of senate, two by presiding officer of house of representatives, and five by department commander of the G. A. R.

6 One-half of appropriation for biennial period 1914-15.

9 One ex officio, two appointed by president pro tempore of senate, three by speaker of house of representatives, and five by department commander of the G. A. R.

<sup>10</sup> Senate may reject nomination of governor and elect to fill the vacancy.

11 Not reported separately.

12 Figures for the State Farm, upon which the Workhouse and House of Correction and the State Infirmary are located, and from the appropriation for which they receive their financial support and maintenance.

13 Figures for the State Infirmary included in those shown for the Workhouse and House of Correction.

14 Institution not established until 1918,

15 Institution in operation only about seven months during 1915. Figure for expenditures represents one and twe-sevenths times the amount expended during the period actually in operation.

16 As institution was in operation for only part of the year, the data were insufficient for computing an average.

<sup>\*</sup>For significance of the symbols following names of institutions, see p. 35.

1 Computed according to the method described on p. 9.

2 Not reported.

3 Pata not available.

4 Institution not open for the reception of inmates on Jan. 1, 1916.

5 Figures relate to the fiscal year ending in 1916.

6 As institution was not opened for the reception of inmates until Sept. 6, 1916, the data were insufficient for computing an average.

7 Figures for The Texas Pententiary (headquarters) and its 15 branches.

<sup>\*</sup> For significance of the symbols following names of institutions, see p. 35.

The San Lazaro Hospital serves us the hospital for acute communicable diseases as well as the hospital for insane, advanced cases of inberculosis, and lepers, but it has been impossible to segregate the figures except in a few instances. In 1917 a building for aged and infirm was constructed.
